

INSIGHTS & RESEARCH

We provide the insight and intelligence you require, applied to your markets today and into the future so you have complete confidence in where to put your development focus. From current market research to predictive intelligence, we help clients find those insights at the intersections affecting their businesses: social, geopolitical, competitive, economic, environmental & technological.

Innovaro Knowledge Express

With unlimited use of more than 25 proprietary databases you can tap into information as you need it when you need it, all in one place. We've got it down to a science so you don't have to.

Innovaro Knowledge Express is an online information service, purpose-built for those who need it most – technology transfer, business development, intellectual property, competitive intelligence, and marketing professionals across the physical and life sciences.

You get the benefit of a powerful information engine that combines premier business development resources with expert searching capabilities and report generation functionality. Our tools deliver a reliable, robust and comprehensive service so you can make accurate decisions based on relevant industry data, and do it fast.

Understand the Future. Choose Foresight.

Foresight is the ability of an organization to understand the ways in which the future might emerge and to apply that understanding in organizationally useful ways. We provide services to help you build the capacity to understand your future consumer, including monitoring trends, researching topics of interest, forecasting alternative scenarios, developing technology roadmaps, creating growth platforms and embedding futures thinking within the organization.
